Createspace, United States, 2013. Paperback. Book Condition: New. 216 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.Consider solving a problem like $464857384 * 99999999$ mentally, multiplying $4756438 * 14$ in one step, multiplying $997*1008$ in one step, directly writing answer for $18/19$, finding square of 47563 in few easy steps and the list goes on. Speed math teaches you just that and more. Based on the ancient vedic techniques when the tricks replaced the fast paced calculators these techniques can be used to solve almost any mathematical calculation without using calculators and in some cases faster than calculators. Not only can you perform quick and easy calculations but also check your results through some effective techniques. This book teaches you all this and more. A must have book for all everyone ranging from high school students to competitive exam aspirants. It also is a helpful guide to teachers, to parents, and to adults for varied purposes. This book has been written in a simple manner to be easily understood by audience of all age groups. Every chapter begins with a detailed introduction to the concepts. Next, examples are presented to cover almost all possible types of problems. Every example follows two steps approach. In the first step the problem is presented with a quick solution where the learner can appreciate the effectiveness of the technique in a single step. Next the same problem is presented in detailed steps where the learner can learn the quick solution details. Build your analytical skills and improve your thinking by exercising your brain through mental calculations through speed math.
