It is one of my personal favorite books. This is certainly for anyone who states there has not been a book worth studying. I found out this ebook from my mom and dad advised this pdf to learn.

Against order is against reason. -- Recognitions of Clement, bk. iii., ch. xxxiv. History, it has been said, has two eyes, Chronology and Geography. Having already touched upon historical phenomena in relation to the latter science, we shall now briefly treat of the epochs and sequence of time, as viewed by old historians. Strauchius (Chronology, p. 2), says that the chronologer disposeth times, and gives certain characters of them; the historian records things done and fills up the spaces, which the other leaves empty. . . . Yea, Scaliger (Proleg. in Euseb.) makes chronology to be the soul of history, and to excel it as much as the soul doth the body. He adds further, that it assumes most of its principles out of astronomy. According to these authorities history is made a mere accessory to chronology, and occupies a place exactly the reverse of that which we are accustomed to give it at the present day. For, according to them, the times must be first established, and then a series of events found to fit them. That chronology did actually affect the composition of ancient history seems to be indisputable, and there is every reason to believe that the eminent Scaliger was not mistaken in exalting chronology as the guiding spirit of history.1 1 10...
