John Libbey & Co. Paperback. Book Condition: new. BRAND NEW, Localization of Brain Lesions and Developmental Functions, Daria Riva, Arthur L. Benton, The study of neuropsychological functions in children has lately undergone a considerable evolution, most obviously represented by the evidence that cerebral areas of the child's brain are specialised at a very early stage. Such evidence has been derived from a number of anatomical, physiological and clinical studies. This book examines and defines the pictures of any deficient function, or of several, in relation to lesions of different cerebral areas, thereby indirectly demonstrating the role of these areas in neuropsychological development.
