P. Gordy, incumbent of the chair of pedagogy in the Ohio University, at Athens, and for some time editor of an excellent Journal of Pedagogy. The task which the author has here set himself is, to trace the growth and development of the normal idea in the United States. He explains his theme more fully, as follows: Probably no two students would agree precisely as to the elements that enter into this development. The greater their disagreement, the more widely, of course, would they differ as to the institutions in which these elements first appeared. As the author conceives it, the first form in which the normal idea appeared in this country was the belief that the teacher needs special preparation, but that this special preparation consists in the simple addition of the study of certain subjects to the training required for the professions or for business, and, in his opinion, the institutions in which this idea was embodied were the New York academies. This erroneous conception, as the author deems it, gave place to the truer idea - that the proper preparation of the teacher requires not only a mastery of the art and science of education, as far as that is possible, but a thorough grounding in the subjects he is to teach - that the knowledge of a subject that suffices for the citizen does not suffice for the teacher. This idea, he conceives, was embodied in the...
