Bloomsbury Publishing PLC. Paperback. Book Condition: new. BRAND NEW, Chance in the House of Fate (New edition), Jennifer Ackerman, In the last decade, scientists across the world have raced to be the first to crack the code of the human genome, exposing a startling new message: at the most fundamental level humans are genetically linked to every part of the natural world. A dog is 85 per cent genetically identical to a human and humans have only twice as many genes as a worm or a fly. For the first time, award-winning science writer Jennifer Ackerman brings together these astonishing discoveries, and by weaving a mesmerising story of heredity, combining both personal memoir with cutting-edge science, she offers an encompassing vision of the impact these findings have on our everyday lives.
